

USIIS

The Utah Department of Health maintains a voluntary, confidential record system to assist parents/guardians, health care providers, and schools in documenting your child's immunizations. This record system is called the Utah Statewide Immunization Information System (USIIS). Allowing your child's school to share your child's immunization history with USIIS will aid you, your child's health care provider, and the school to determine which immunizations your child has received and which may still be needed.

I give my permission for the school to share my child's/legal dependent's immunization information with USIIS.

I understand that if I do not want my child's immunization information shared with USIIS, I will provide this request to the front office in writing at the time of registration

Image Release

I agree that my child's picture may be used in the yearbook and other media.

I understand that if I do not want my student's picture in the yearbook and/or used for any other purposes, I will provide this request to the front office in writing at the time of registration.
